

**THE UNITED STATES DEPARTMENT OF ENERGY ANNOUNCES  
THE AVAILABILITY OF THE PROPOSED PLAN FOR REMEDIAL  
ACTION AT THE QUARRY RESIDUALS OPERABLE UNIT OF THE  
WELDON SPRING SITE**

As part of the Weldon Spring Site Remedial Action Project, the U.S. Department of Energy is issuing the Proposed Plan for public review and comment. The Proposed Plan addresses the management of contamination in groundwater in the vicinity of the Weldon Spring Quarry to reduce potential impact to the St. Charles County well field. The quarry is located on Highway 94 South, approximately 7 miles south of Highway 40/61.

The Remedial Investigation, Baseline Risk Assessment and Feasibility Study are available for information purposes. These documents, which have been prepared in accordance with the requirements of the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), will form the basis for a Record of Decision (ROD) which will define the alternative for managing the quarry residuals. The Proposed Plan is now available for public review and comment. Written comments should be sent to:
